Power of Skills Search & Sourcers who code benefits

By Randy Bailey

Talent Insights, Walmart

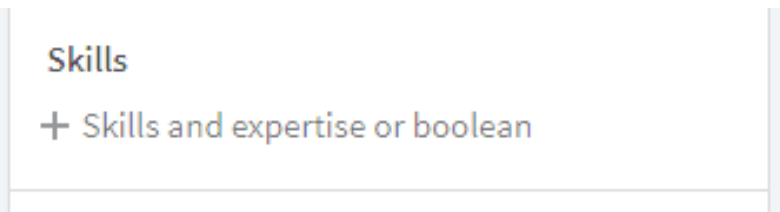

Presented Feb. 21, 2019

Again, a huge Thank you to our sponsors for helping to keep BATSA free!

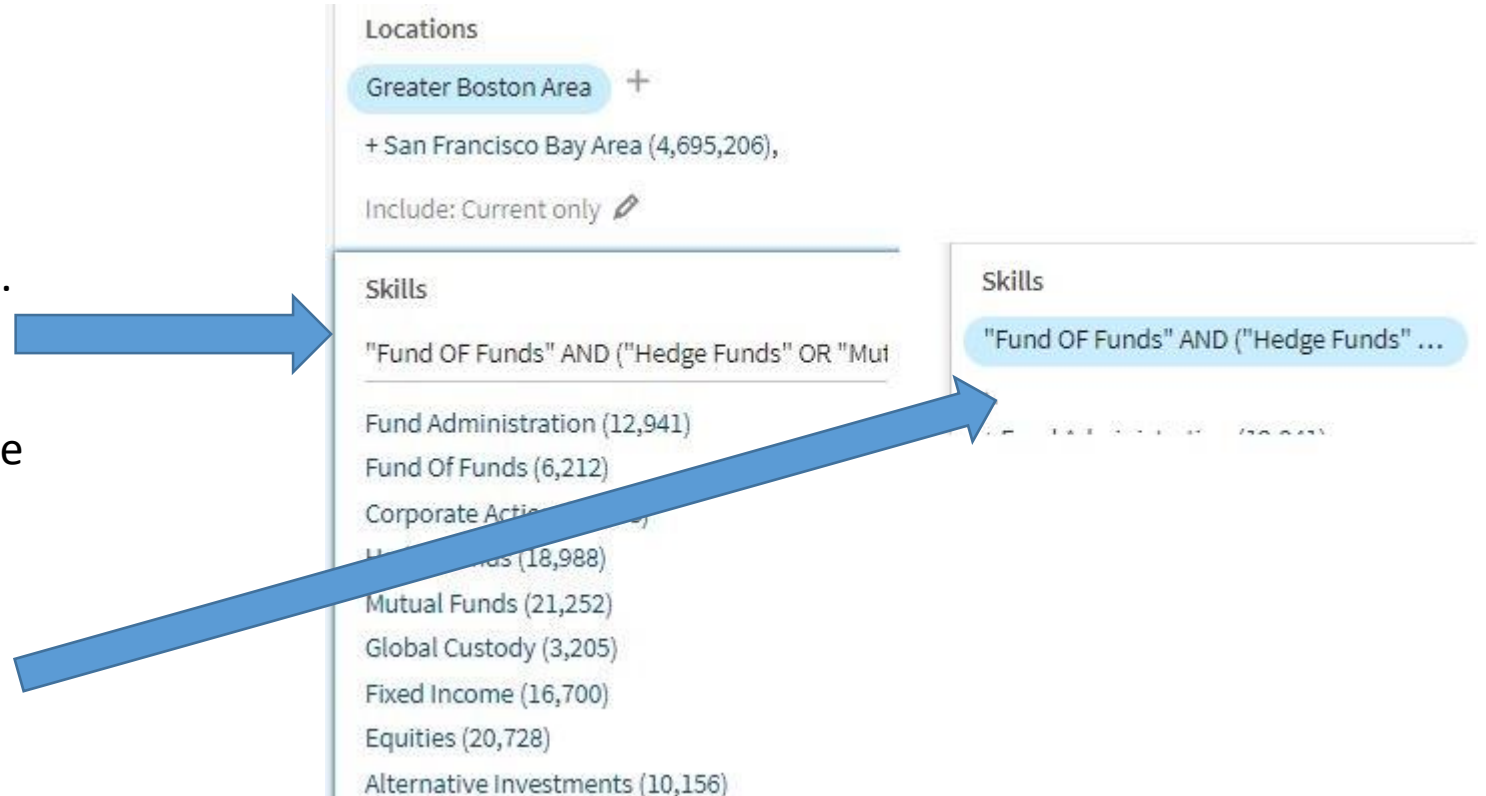

LinkedIn Recruiter Skills

- Released recently; I just learned about it on Tuesday.
- Now allows Boolean searches (mix AND OR -) within the Skills filter. Potentially more accurate than using keyword search

- Don't select values from the Skills list. Instead, refer to list but TYPE them in (surround with quotation marks) and include AND/OR/NOT Booleans where desired.
- Press Enter key when done, and you will see your Skills values boolean in the usual blue oval.
- Run search when done for more targeted results!

Sourcers Who Code

- https://github.com/andrebradshaw/random-LinkedIn-tools/blob/master/LIR_otherPeopleWithSameJob.txt
- Convert Projects into the old Table view

- Table Capture
